

Peach Finalizes the Additional Order of Airbus A320neo

- 18 aircraft to be added
- Aircraft will be gradually delivered from 2021
- These additional aircraft will be used for upgrading the existing fleet

Osaka January 29, 2019 - Peach Aviation Limited (“Peach”; Representative Director and CEO: Shinichi Inoue) announced that it has finalized the additional order of 18 A320neo aircraft from Airbus (Head of Commercial Aircraft Division: Guillaume Faury).

Peach has already placed an order for 8 A320neo aircraft, and it is planning to receive the first aircraft from this order during FY2020. The additional A320neo aircraft will be received after FY2021 and they will be used as replacement aircraft for the existing fleet.

A320neo uses state-of-the-art technology such as new engine and wingtip devices such as sharklet, which is a large wing tip. With this, as compared to conventional aircraft, the aircraft offers excellent environmental performance in terms of significantly improved fuel efficiency and reduced emission of CO2.

Airbus A320neo to be additionally purchased

[Summary of A320neos Peach will additionally purchase]

Number of aircrafts to be purchased: 18 aircraft

Delivery schedule: Delivery will start from FY2021 (after that, total 18 crafts will be delivered in about 5 years)

Engine: Undecided

Number of installed seats: 188 seats

In FY2020, Peach plans to introduce 2 medium-range A321LR aircraft. The A321LR is the newest member of the A320 family of jets, the best-selling single-aisle jet in the world, and based on the A321neo, a member of the same family of jets. The model boasts a flight distance of 7,400 km, the longest flight distance in the world for a single-aisle jet, which will make it possible for Peach to fly throughout Asia.

About Peach (www.flypeach.com)

Peach began its services in March 2012 with Kansai Airport as its hub. It established New Chitose Airport, Sendai Airport and Naha Airport hubs. It currently flies 23 aircraft on 16 domestic and 15 international routes, operating a maximum of more than 100 flights daily and servicing more than 13,000 passengers.
